

Aerospace & Defence Manufacturing - Empowering Future Engineers

Train mechanical, aeronautical, and aerospace engineers to become industry-ready professionals in production, design, and MRO.

The Booming Aerospace & Defence Industry

Market Size

\$26.78 billion in 2023, projected to grow to \$48.41 billion by 2032 at a CAGR of 6.8%.

India's Aviation Market

Expected to be the world's largest by 2047, with over 500 million travelers by 2030.

Structured for Success

1 Manufacturing Processes & CAD Tools

Hands-on training with industry-standard tools and software.

3 Project Management & HR Skills

Develop essential skills for leading and managing teams.

2 MRO Techniques

Learn about maintenance, repair, and overhaul procedures.

4 AS 9100 Rev D & ISO 9001:2015

Compliance

Gain knowledge of global quality standards and regulations.

Learn from Industry Experts

Group Captain E R
Rajappan (Retd.)
MD of Shivayu Aerospace

Dr. C K B Nair
Former GM, Indian Ordnance
Factory

Mr. Paulraj Subramanyam
Former MD, HMT Machine Tools

Wing Commanders A V
Joshi & R N Chatterjee
(Retd.)
Experienced professionals in
aerospace and defence.

Build Your Future in Aerospace

Production Engineers

Oversee manufacturing processes and ensure quality.

Aerospace Designers

Create innovative aircraft and spacecraft designs.

MRO Engineers

Maintain, repair, and overhaul aircraft and spacecraft.

Why Now?

10B

Government Initiatives

Fund for space startups and employment generation schemes.

14%

Industry Developments

RTX to increase Indian workforce by 14% by 2027.

100

Investment-Ready Parks

Industrial parks in 100 cities across India.

Proven Success Stories

1

Alumni Insights

Hands-on experience with real-world applications.

2

Mentorship

Guidance from industry veterans.

3

Successful Placement

Trainees placed in leading aerospace firms within 3 months.

Ready to Take Off?

1

Start Date

Mid-January 2025

2

Eligibility

Mechanical, Aeronautical, and Aerospace Engineers & Diploma Holders

3
